

The Specialist in Event Childcare

“ I have worked with Crèche Out for several years and can thoroughly recommend their services. They most certainly add value to our events and activities. Always professional in their preparation and presentation, they are an absolute pleasure to deal with. ”

Mel Atkins
The Finishing Touch

THE CHILDCARE COMPANY OF EXCELLENCE

Established in 1992 by the current director who is a Norland Trained NNEB Nurse and is still very hands on.

It is important at events of all types that guests with children are welcome and catered for but it is also vital that those attending without children are not inconvenienced. Crèche Out believe that children should be seen and heard but not by everyone and not all the time.

“ Thank you to the team for all your help in making the Smurfit European Open such a success this year – you certainly do a magnificent job. Everybody associated with the event is justifiably delighted at how well things went and is very excited about next year. ”

Mark Hicks
Event Staging Co-ordinator, Smurfit European Open

HEALTH AND SAFETY, LEGISLATION AND STANDARDS

We also offer specific Lost Children's facilities for use at large public events.

Our staff are qualified and experienced nursery nurses with NNEB, NVQ 3 and CACHE Qualifications, as well as being smartly uniformed.

Safety of children is paramount so we offer a secure sign in/out system, which has proved to be the most effective and secure way of ensuring that all the children are returned safely to their own parent / guardian and ensures the complete protection of the children in our care.

We work to strict legal guidelines in relation to all aspects of mobile crèches, particularly regarding the ratio of careers to children so parents are assured the best possible care for their children.

Staff are Paediatric First Aid trained.

“ The Crèche Out team were superstars at the SPARKS Fashion Show. They kept my daughter Molly amused and happy both before and after her appearance on the catwalk.
